

2023 NHIA Annual Conference

Onsite Program

MARCH 25-29, 2023

Gaylord National Resort & Convention Center
Washington, D.C.

conference.nhia.org

Welcome

On behalf of the NHIA Board of Directors and staff, we could not be more excited to welcome you to Washington, D.C. for the 2023 NHIA Annual Conference, the only event dedicated to the home and alternate site infusion industry. We know that your time is more valuable than ever and it means a great deal to us that you are making the investment to attend this year's event.

While 2022 was a year of transition and recovery as the country emerged from the global pandemic, this year we are focused on looking forward and preparing for the future. As always, our goal is to provide attendees with an experience rich in opportunities to learn, network, and explore new products and services in our popular exhibit hall.

Once again, NHIA's Education Committee has developed an exceptional line-up of conference programming. Year after year, these volunteers—infusion professionals like you—put a remarkable amount of time and expertise into planning this event. From their perspective on the ground, they identify the most relevant issues impacting the industry to create cutting-edge education, exhibits, and events that are unrivaled in the home and alternate site infusion space. In addition to daily education sessions, NHIA will bring you up to date on high-priority advocacy issues, such as the federal legislative efforts to fix the Medicare Part B services benefit, coverage expansion for Medicare Part D drugs, enteral and parenteral regulatory changes, U.S. Pharmacopeia sterile compounding standards, and more. There will also be ample opportunity to learn from one another with our popular roundtable and poster abstract programs. The always-lively exhibit hall will feature an Exhibitor Theater—a great opportunity for additional education while you're eating lunch—and the opportunity to win great prizes with the Infusion Quest Mobile App Game. The extremely popular Sterile Compounding Clinic is also back, where you can step into a simulated compounding lab to practice your compounding skills and prepare for the new standards.

No conference would be complete without a chance to interact with your peers. Carve out time for social events like the welcome reception, Opening General Session, and annual networking event, held at Punch Bowl Social. Finally, you won't want to miss events that celebrate the accomplishments of individuals who have made significant contributions to the profession. The newest class of NHIA Fellows will be recognized at the Foundation Celebration. Ticket sales from this event support the mission of the National Home Infusion Foundation to promote research and leadership development. New this year is the Diversity, Equity, Inclusion, and Accessibility General Session, where we will learn about Culturally Responsive Care and honor the winners of the Lynn Giglione Women in Leadership Award and Outstanding Abstract Achievement Award.

As always, we couldn't host an event like this without sponsors. We are truly delighted by the growing number of companies demonstrating their support for the infusion community and NHIA—please make it a point to visit and thank them during your stay. Thank you again for attending the signature event of the home and alternate site infusion industry. We hope you leave feeling inspired and prepared to succeed in today's dynamic health care environment.

Connie Sullivan, BSP Pharm
President & CEO

The National Home Infusion Association (NHIA) is the leading organization supporting the nation's home and alternate site infusion provider community and the manufacturers, suppliers, and service companies that support the industry.

NHIA is committed to meeting the needs of its growing and diverse membership. Our mission is to provide advocacy, education, and resources to the home and alternate site infusion community so the patients they serve can lead healthy, independent lives.

NHIA is excited to launch new member programs and resources — please visit us in the Exhibit Hall at NHIA Central to learn more!

To learn more about NHIA or inquire about membership please visit us at <https://nhia.org> or email our team at membership@nhia.org.

Baxter

DoseEdge

PHARMACY SOFTWARE

PUT TECHNOLOGY IN THE MIX

DoseEdge Pharmacy Workflow Manager and **ExactaMix** Automated Compounder:
Integration for Improved Safety

Every patient has unique nutritional needs, often requiring manual additions to the PN formulation.¹ Maximizing safety during the compounding process can help to minimize medication errors in PN preparation. Unfortunately, 60% of surveyed respondents reported observing one to five PN-related errors per month.²

The **DoseEdge** Pharmacy Workflow Manager integrates with the **ExactaMix** Automated Compounder to help improve safety, efficiency and documentation when preparing PN doses.

Stop by Baxter Booth #523 (Next to NHIA Central) to learn about these two products and additional products from Baxter that can help your Home Infusion Pharmacy.

Continuing Education

NHIA is offering CEs through the conference app and website. A code will appear on the screen at the end of each CE activity. Make note of the code.

Click on the “surveys” tile at the bottom of the main screen and navigate to your personal task list within your Survey Magnet. Complete your tasks and collect your CE!

All 2023 NHIA Annual Conference education programs are accredited for pharmacy, nursing, and dietitian continuing education, unless otherwise noted. Educational learning objectives and associated continuing education information for each session can be found in the NHIA Conference App.

Live CEs must be claimed within 45 days of the end of the conference (ending on May 14, 2023). Credit for Enduring CEs will continue for one year following the conference.

PHARMACISTS AND PHARMACY TECHNICIANS

The NHIA Annual Conference is sponsored by Educational Review Systems, which is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

NURSES

Educational Review Systems is an approved provider of continuing nursing education by Alabama State Nurses Association, an accredited approver of continuing nursing education by the American Nurses Credentialing Center, Commission on Accreditation. Educational Review Systems is also approved by the state of California, the state of Florida, and the District of Columbia.

DIETITIANS

Educational Review Systems (provider number ED002) is a continuing professional education (CPE) accredited provider with the Commission on Dietetic Registration. Registered dietitians and dietetic technicians, registered, can receive CPE units by attending pre-approved sessions as noted in the NHIA Conference App. Dietitian knowledge levels and learning codes are listed in the App for CPE-approved sessions.

This year NHIA is offering CME for selected sessions.

Visit conference.nhia.org/CME for details.

Don't need CE?

Share your opinions anyway! NHIA uses the data from our session feedback to improve our annual conference and develop programs focused on meeting your educational needs.

Welcome Reception

Saturday, March 25 | 6:00 PM – 8:00 PM

Kick off the conference with us at our welcome reception. It's a popular way to meet attendees before the conference gets started. Refreshments and appetizers will be served.

Generously sponsored by  TerSera[®]
therapeutics

Foundation Celebration **ticketed fundraising event*

Monday, March 27 | 6:30 PM – 7:45 PM

At this year's revamped NHIF reception, attendees will experience an open bar, enjoying food and being served drinks in a most memorable fashion by two flair bartenders all while supporting the outstanding work NHIF produces to advance the home and alternate site infusion industry.

Individual tickets (\$125) can be purchased at the NHIA Registration Desk located on the Exhibit Hall level.

All proceeds go directly to NHIF programs.

The National Home Infusion Foundation (NHIF) is recognized as a 501(c)(3) nonprofit organization by the IRS, Tax ID# 46-0567195. The fair market value of the goods and services received during the Foundation Celebration event is \$25.

Signature Networking Event at Punchbowl Social

Tuesday, March 28 | 7:00 PM – 10:00 PM

The networking event you don't want to miss!

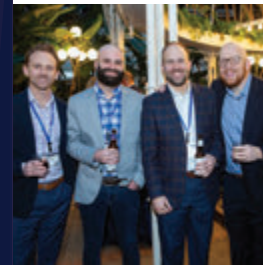

NHIA is taking over the 24,000-square foot "fun factory" known as Punchbowl Social in the vibrant Ballston neighborhood—a technology, education and nightlife hub just outside of Washington, D.C.

With three floors of entertainment options, it's the perfect opportunity to converse with old friends, make new ones, and meet colleagues from across the infusion industry. Enjoy activities such as mini and full-size bowling, ping-pong, darts, giant wall scrabble and other tabletop games, karaoke, and old school arcade games.

NEW!

Networking Opportunities for 2023

- **Sunday – New Drugs & Biologics Lunch & Learn (CE program)**
New, extended format for this popular session
- **Monday & Tuesday Morning – Networking Coffee**
- **Tuesday – Dessert Break**
- **Wednesday Morning – Continental Networking Breakfast**

Keynote Sessions

LOCATION: Potomac AB

Opening General Session Keynote

MARCH 26, 2023 | 3:15 PM - 4:30 PM

Anthony Trucks is a former NFL Athlete, American Ninja Warrior on NBC, international speaker, host of the Aww Shift podcast, author of *Trust Your Hustle* and founder of Identity Shift coaching.

By teaching audiences how to turn roadblocks and obstacles into opportunities, Anthony inspires and teaches people to unlock their full potential and achieve success and happiness. A healthier life, better relationships, a successful career, more money – whatever the goal, let Anthony provide you with the roadmap to Shift into Success!

Industry Keynote with Dr. Jain

MARCH 27, 2023 | 10:45 AM - 12:00 PM

Learn and ask questions about the current and future landscape of health care with **Sachin H. Jain, MD, MBA, FACP**, President and CEO of SCAN Group and Health Plan and LinkedIn's top voice (#1) for health care.

Dr. Jain's candid and prescient ideas on transformation and innovation across the health care industry are frequently featured in Forbes. He is looking forward to sharing his thoughts with and answering questions from NHIA 2023 attendees particularly around topics related to alternate sites of care. Dr. Jain has himself built and led several home-based care models at CareMore Health, his previous company, as well as created 3 home-based care divisions at SCAN.

Culturally Responsive Care

Applying new cultural approaches to improve the quality of care for diverse patient populations

MARCH 28, 2023 | 1:45 PM - 3:00 PM

Join **Erika McMullen, MA Ed. & H.D., SHRM-SCP** for a dynamic keynote as we explore innovative cultural care approaches. You will leave with practical ways to lead improved communication and trust among diverse patient populations.

Erika is founder and CEO of Moxie Consulting Group where she empowers leaders to create high performing, diverse and inclusive teams. With Erika's contributions, organizations have been named as "America's Best Employers for Diversity" by *Forbes Magazine*, received the Innovations in Diversity & Inclusion Award from *Profiles in Diversity Journal*, and been selected by Diversity, Inc. as one of the nation's Top 10 Hospitals and Health Systems.

Generously sponsored by **Baxter**

(888) 395-2221
<http://www.acciusa.com>

Other

Specializing in chromogenic and turbidimetric reagent technologies, Associates of Cape Cod, Inc. (ACC) has been a global leader in endotoxin and (1→3)-β-D-glucans detection products and services for nearly 50 years. ACC pioneered LAL testing methodology and was the first FDA licensed company to manufacture LAL reagents, and throughout the years has grown to be an internationally recognized leader in endotoxin detection. With a dedication

to quality, ACC is certified to I.S. EN ISO 13485:2016 and ISO 13485:2016. ACC introduce another first when we launched the first and only commercially available sustainable BET Recombinant Cascade Reagent (rCR), PyroSmart NextGen®. PyroSmart NextGen® is completely horseshoe crab blood free and unlike first generation recombinant BET reagents (rFC), PyroSmart NextGen® is the only one that uses the same LAL cascade as traditional LAL reagents, while eliminating the potential for 1,3-b-D-glucans. This eliminates the need to change test methods and purchase new specialized instrumentation as required by first generation rFC recombinant reagents. Simply put... Keep your Method... Make an Impact!

(919) 792-6339
<http://www.cetainternational.org/>

The Controlled Environment Testing Association (CETA) was established in 1992 to promote quality assurance in the controlled environment industry. The formation of CETA was derived from a need to collect data, network, bring a higher level of integrity to the industry, and improve testing quality. Today, CETA continues to operate based on these founding goals. Through conferences, educational series, and the semi-annual journal, members exchange and disseminate information on testing and certification issues. CETA has evolved into an organization dedicated to providing best practices for certification professionals through the creation of CETA Application Guides (CAGs), which are globally referenced by other organizations throughout the industry. To further assure quality services to those who work in or around controlled environments, CETA launched the CETA National Board of Testing (CNBT). Since 2012 CNBT has created accreditations for Sterile Compounding Facility (RCP-SCF), Fume Hood (RCP-FH), and Cleanroom (RCP-CT) performance verification. Currently there are over 200 SCF accredited individuals with more individuals and RCP programs to come.

TubeClear System (Actuated Medical) **Booth 737**

320 Rolling Ridge Drive
Bellefonte, Pennsylvania 16823
(814) 355-0003
<http://www.TubeClear.com>

Medical Supplies and Devices

The TubeClear System was developed to assist healthcare practitioners with maintaining enteral medication and nutrition therapy. During delivery, medication and nutrition materials often buildup on the inner walls of feeding and decompression tubes (Tubes). Over time, this buildup narrows the inner diameter and causes the Tube to become sluggish and/or clog which impedes critical therapy delivery. Using the TubeClear System REGULARLY while the Tube remains in the patient and at bedside keeps enteral therapy on schedule. And using TubeClear quickly on clogged Tubes restores patency and enteral therapy schedules which keeps the Tube in the patient to continue to deliver enteral therapies.

U.S. Micro-Solutions, Inc. **Booth 723**

302 Unity Plaza
Latrobe, Pennsylvania 15650
(724) 853-4047
<http://www.usmslab.com>

Analytical Testing
